

# Phase 4 tricky words: Reception Summer term

## Information for parents and carers

'Tricky words' are words that cannot easily be decoded ('sounded out' and read). This is because some of the sounds in the words are spelled in an unusual way. It is important for children to be able to read these words as they are among the most common words in English.

The table shows the tricky words that your child will learn in Phase 4 in the Summer term of Reception and explains why each word is tricky. Phase 2 and 3 tricky words that remain tricky at this stage of learning are also shown. Children will practise the tricky words in school until they can read them automatically. They will also practise reading the tricky words in the decodable books that they bring home.

Phase 4 tricky word	Tricky part(s)	Why is it tricky?
said	ai	The 'ai' makes the sound <b>e</b> . <i>This is a rare spelling for this sound.</i>
so	o	The 'o' makes the sound <b>oa</b> . <b>Learning so far:</b> For 'o', your child has learned the sound o as in 'top'.

of	f	The 'f' makes the sound <b>v</b> . <i>This is a rare spelling for this sound.</i>

\*Depending on regional pronunciations, not all children will be taught the words 'put', 'pull', 'full' and 'push' as tricky words.

## Terminology

**Phoneme:** The smallest unit of sound that can be identified in words. We also use the term 'sound' but your child may use the word 'phoneme'. There are 44 phonemes or sounds in the English language.

**Grapheme:** A letter or group of letters used to represent a phoneme in writing. The way graphemes are used to represent phonemes in our written language is known as the alphabetic code.

**Decode:** To break down ('sound out') a written word into sounds then blend the sounds together to read the word.

**Digraph:** A grapheme made of two letters that represent one sound. An example is the 'sh' in 'shop'. Your child may use the mantra 'two letters, one sound' when they spot a digraph.

**Schwa:** This is the name for the most common sound in English. It is the unstressed sound that we find in many words and can be spelled in many ways. It makes an 'uh' sound, which varies according to accent. Examples include: the, better, carrot, balloon.

**Trigraph:** A grapheme made of three letters to represent one sound. An example is the 'igh' in 'sight'. Your child may use the mantra 'three letters, one sound' when they spot a trigraph.
